Subject: Internal deliberative: update on NJ project

All,

I am away on annual leave Thursday 6/28 and returning the Monday after July 4.

I am attaching an update of draft observations and progress on the New Jersey project, including:

- 1) An MS/MS method for 9 chloro perfluoro-polyethers;
- 2) Analytical results for all NJ soil samples and selected plant samples;
- 3) a proposed fingerprint for elucidating the source of C9 (and perhaps C11 and C13) PFCAs in some soil samples;

4)

5)

6)

7)

Ex. 5 Deliberative Process (DP)

Have a great holiday everyone,
John
